Who We Are

Kazakh Dutch Company

- The company was founded in 2005 with two independently registered offices in Kazakhstan and the Netherlands.
- **KazDuCo** is a dynamic, fast growing and financially stable company in the market of oil and gas and mining.
- The company provides a vast assortment of products and services for areas as diverse as drilling, cementing, completions and production.

Our Management

- 📍 Our management has more than 100 years of combined experience in the oil and gas industry, primarily in the upstream sector.
- 📍 Thanks to its background and involvement in the leading international projects, **KazDuCo** management has been integral in expanding our international network.
- 📍 Thanks to their dedication, our managers have established and retained key relationships at every level within large operators as well as smaller individual clients.

Our Team

- 📍 **KazDuCo** has a dedicated team of managers, engineers and shop workers.
- 📍 The staff is nationally diversified and speaks Russian, Kazakh, English, Dutch, French and Spanish.
- 📍 Shop employees and field engineers undergone extensive domestic and international training
- 📍 Enthusiastic team ready to provide you with the best quality services.

Products

Drill Bits: Steel & Matrix PDC bits

- We design and manufacture our own PDC bits for diverse applications.
- Our direct contacts with world leading manufacturers of synthetic diamonds enable us fitting our PDC bits with premium, high performance cutters.
- We also provide a convenience of one stop shopping by maintaining a large inventory of bits of the world leading manufactures.

Products

Tricones

- We carry a large inventory of Tricon bits and also used reconditioned bits to cut down the cost.

Products

Well Head Equipment

- We supply a broad range of API-6A wellhead equipment, designed to operate up to 20K psi and in severe well conditions with high H₂S, CO₂ concentrations.

Products

Casing Hardware

- A wide range of casing with or w/o premium threads.

Products

Liner Hanger Equipment

- A wide range of standard liner hanger equipment and also specialize in customized liner hanger solutions for unique or specialty applications.

Products

Completion Equipment

- To maximize well production including swellable technology, subsurface safety systems, high-pressure packer systems, intervention solutions, flow controls, and expandable liner technology as well as intelligent completions and multilateral systems.

Products

Chemicals

- High quality industrial minerals and additives: *bentonite, baryte, drilling fluids, dolomite, hematite and additives.*
- Palletised material, big bags and bulk.

Products

OCTG

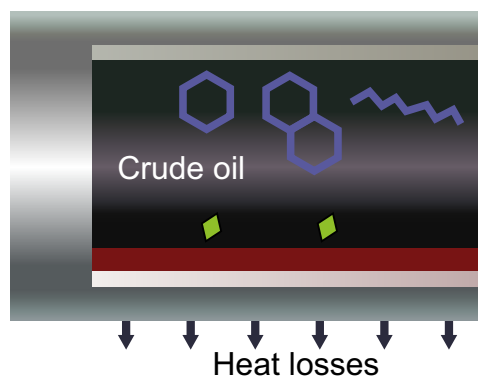

- A complete range of Casing and Tubing with API and Premium gas-tight connections from normal grades to steel grades applicable for severe well conditions with high concentrations of H_2S , CO_2 and CL, high or low temperatures.
- Tubulars are supplied direct from API-certified mills or from stock at our partners worldwide.
- Drill pipes come in varying specifications of sizes, strength and weight and are compliant with API 5DP Specification.
- We offer an extensive range of API line pipe in sizes, grades, and coatings to meet customers' pipeline requirements.

Products

NoWAX

- An innovative, cost efficient and environmentally safe solution to paraffin precipitation in oil wells, flow lines, pipelines, storage facilities and tankers.

Services

Equipment Rentals

- We have an extensive inventory of drill bits, rigs, cementing units, stabilisers, roller reamers, downhole motors, jars and other types of equipment available for rent to spare you the cost and eliminate storage and maintenance costs.

Used Bits Services

- Full scope of used bits servicing starting from collecting the bits from the customer site to packing reusable bits and delivering them back.

Services

Bits Repairs

- Thanks to our subsidiary's repair shops in several locations around the world, equipped with the state of the art equipment and our trained and highly qualified we are able to provide an excellent repair job.

Services

Drilling optimization

- Our comprehensive drilling optimisation services allow to our customers to achieve reduction of drilling time.

Bit Services

- Bit and BHA supervision at the field location and engineering, combining optimization services, including field services and drilling engineering services.

Services

-  **Integrated Project Management**
 - Services of managing the construction or work over of wells with engineering and technical support to facilitate successful project outcomes.
-  **Procurement and Logistics Outsourcing**
 - Include planning and executing procurement plans related to drilling and production equipment and services for Oil and Gas, Mining and Geothermal companies.

Licences

Our activities are based on the State Licenses and Permits issued for the activities in such fields as Oil and Gas production, Mining and drilling operations.

GEFCO STAR 50K - TOP HEAD DRIVE DRILLING RIG

-  **KazDuCo** owns GEFCO «STAR 50K» Top Head Drive Drilling Rig. Mounted on 6x4 truck with 565 HP engine, the GEFCO 50K, with 50,000 lbs. of top head hoist, a 10.7 m mast height above breakout table can handle large casing loads.

Health and Safety Policy

 *"Do it safely or not at all"*

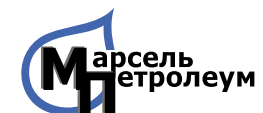

In **KazDuCo**, we are committed to zero accidents and zero harm to people and the environment. For this purpose, we have policies and procedures in place and manage to reach this goal year after year.

Our customer

-  Local operators
-  International operators
-  Drilling contractors
-  Service companies
-  Bit suppliers
-  Mining companies
-  Independent service companies

Why us

- 📍 Our ability to respond to a customer's specific needs with customized solutions
- 📍 Highly qualified personnel
- 📍 High quality product of world leading suppliers
- 📍 Excellent service
- 📍 Flexibility in pricing
- 📍 Local content
- 📍 Less transport time and cost
- 📍 Experience with domestic market, infrastructure, rules and regulations

Thank you!
